

Falling

Dynazty

I'm all alone again
I lost my only friend
I went to far
I thought I was a star
My words were all in vain
They only caused you pain
My life will never be the same

One love, one heart
Forever torn apart

I am falling
I am falling
No wings left to fly
To the ground
I am falling, I am falling
Heaven it cries
To the ground I am falling

I made a big mistake
Was more than you could take
I broke your heart
And left you with a scar
Always on my mind
I think about you all the time
I can't leave these memories behind

I am falling
I am falling
No wings left to fly
To the ground
I am falling, I am falling
To the ground I'm falling

I am falling...
