

Get It On

Dynazty

I've seen you hanging around
And I gotta make you mine
The hunger in your eyes
Girl you drive me wild
The way you move your body
The way you lick your lips
Girl, you've got that something
I just can't resist
I can't resist

Hell is freezing over
As we're getting closer
You and I could
Make the world ours

Get it on, get it on, get it on
Baby
Get it on
And you can drive me wild
You can drive me crazy
Get it on, get it on, get it on
Baby, set me free
I'll be flying in a dream
When you get it on
Get it on

I'm all soaked in sweat
Every inch of my body
The way you're doing me
Girl you drive me wild
I want more more more
Of what I'm not too sure
Girl, you've got that something
I just can't resist
I can't resist

Hell is freezing over...

Get it on, get it on...
