

Heart of Darkness

Dynazty

I walk the line
Moral cassums on every side
I navigate the nightmare of my choice
I've grown anger in my voice
I know I should confess
I feel a little less
Everytime that I give in to my weakness
If only we could learn
To look before we turn
No!

We wanna feel it, we wanna taste it
We wanna take this life to the limit
And we live as we dream
Alone inside the heart of darkness
It beats in all of us
And I know what it does
Bringing our worst to the surface
And we live as we dream
Alone inside the heart of darkness

I curse the pain
And vow to never feel weak again
Through the dark night of my soul
I fall deeper through the void
I turn against the world
I'd rather see it burn
Why should I give when I receive so little
A good deed will soon be gone
While the evil it lives on

We wanna feel it, we wanna taste it
We wanna take this life to the limit
And we live as we dream
Alone inside the heart of darkness
It beats in all of us
And I know what it does
Bringing our worst to the surface
And we live as we dream
Alone inside the heart of darkness

I blame the world for all I've done
I can't face what I have become
But the dark will soon be here
All light will disappear
If I won't change

We wanna feel it, we wanna taste it
We wanna take this life to the limit
And we live as we dream
Alone inside the heart of darkness
It beats in all of us
And I know what it does
Bringing our worst to the surface
And we live as we dream
Alone inside the heart of darkness
