Can you see through the smoke and the fire?
Can you look when your eyes are closed?
Can you know what's the way to go at the cross of roads?

On the edge of madness, glory will lie
Through the eye of the needle, we must tread the line
Far beyond what the naked eye can see
We blaze the frontiers of our humanity
In the search for purpose and truth

Can you see through the smoke and the fire?
Can you look when your eyes are closed?
Can you know what's the way to go at the cross of roads?
Are we blind on descent into madness
Or ascending to clarity?
Forever it will be a mystery

Break the borders between body and mind
In the flow, we transcend our limitation and find
Intuition is a vision divine
Or a place of tranquility where mind lead blind
Is it all just a shot in the dark
Or is there something more to this mystery?

Can you see through the smoke and the fire?
Can you look when your eyes are closed?
Can you know what's the way to go at the cross of roads?
Are we blind on descent into madness
Or ascending to clarity?
Forever it will be a mystery

Can you see through the smoke and the fire?
Can you look when your eyes are closed?
Can you know what's the way to go at the cross of roads?

Can you see through the smoke and the fire?

A mystery
Can you see through the smoke and the fire? Can you look when your eyes are closed?
Yeah
Can you know what's the way to go at the cross of roads?
