The Light Inside the Tunnel

Dynazty

We watch the sky fall down, we feel the ground recede
In denial we hide and let it rain
Consumed by starving shadows feeding on our strength
The force that thrives we keep alive

Answers like shackles
Clouding the streets of our home

Rise.
We stand together on the edge of our downfall
There's no escaping, the light inside the tunnel is waiting
If we surrender to reason, to purpose, to freedom
We can take it back
The light inside the tunnel is awaiting

A stream of light can crack the cage of our secrets
The breeding ground of fear and pain
In numbers we are strong no one should walk alone
We'll overcome what lies ahead

Blindness controlling
Darkness consuming us all

Rise.
We stand together on the edge of our downfall
There's no escaping, the light inside the tunnel is waiting
If we surrender to reason, to purpose, to freedom
We can take it back
The light inside the tunnel is awaiting

I will never bow before you
I am the one that controls all of what is you

Rise.
We stand together on the edge of our downfall
There's no escaping, the light inside the tunnel is waiting
If we surrender to reason, to purpose, to freedom
We can take it back
The light inside the tunnel is awaiting
