

Waterfall

Dynazty

I, I want to see it all come and crashing down
Without a care if it is wrong or right
This time I will decide
'Cause fate is not without a sense of irony
I shook my eyes and now I clearly see
What it means to be free

Waterfall, let the rain come wash away it all
One final overhaul, 'til we dream no more
Damn it all, we're all waiting for a miracle
Wash away it all, with a waterfall

Time, time has shown another point of view
I wish I stood for what I always knew
No words been said, what's true?
Our lies!
But I will choose to see the fun inside
All sympathies within me now have died
This time the dark is mine

Waterfall, let the rain come wash away it all
One final overhaul, 'til we dream no more
Damn it all, we're all waiting for a miracle
Wash away it all, with a waterfall

Waterfall, let the rain come wash away it all
One final overhaul, 'til we dream no more
Damn it all, we're all waiting for a miracle
Wash away it all, with a waterfall

Waterfall
Let the rain
'Til we dream no more
Damn it all
Wash away
With a waterfall
