

Come To Me

Dyslesia

Rustling sounds of horror hunt me
Like obscene cuts, they hurt me now
On the bow of night bright light explode
And the magic of the fire
Overwhelms my soul and I fall on my knees
Searching for some gods to pray

(Chorus)

Fools are taking on my hunger
So raw vibrations, so weird sensations
There's only one way to our salvation

(2nd Chorus)

Come to me now
You let yourself show
Come to me now
I swear we'll get out of sorrow
When we leave this word behind

Moon is waking up all my thirst
So harsh reactions, so deep impressions

(Chorus)

(2nd Chorus)

... Clouds have drunk universe,
But the world calls me out
Once more I feel it growing
I'll catch the fire and get out of here

I'll be gone like an old man without faith
I'll be gone like a lost soul without fate

(2nd Chorus) (2x)
