

Dependance

Dyslesia

I stand at the borders of death
Wrecked down by sour weakness
And the sun turns cold and pale
While the sea is ice and nail
I feel sunshine
Caus' this deep feeling of vacuity
Is steering all the strikes in me

(Chorus)

I can't feel
Caus' ur beyond my range
Feel worry
I can't feel your hand
I can't feel
And I'm wrecked out by fear
Like a deer
And I'm stalked like a deer

Our love sunk in black sunset
Roots of bliss never to touch again
And the depth of pain, so deep my friend
My dark angel, my sweet devil
I feel sunshine
Drying traces on my face
Another rough clash, such emptiness

(Chorus) (2x)

I can't feel
Caus' ur beyond my range
Feel worry
Was not born to depend
I can't feel, caus' ur alive and stand
Like a deer
In a world beyond my hand
