

# From A Distant Shore

Dyslesia

They call my name  
They talk about me as a legend  
Meet me at sundown  
You'll learn but you don't understand  
Just a number  
Interaction between the life and the spirit  
Lost forever nobody knows end of story

Chorus:

From a distant shore  
The morning calls the dreams  
I'll be waiting for the light  
From a distant shore  
I hear the voice of the wise  
Living your life on your own

They stole my name  
They've put my face on every wall  
Join me in my dreams  
You'll see but you don't understand

Just a number  
Interaction between the life and the spirit  
Lost forever nobody knows end of story

Chorus

Never need love when right is wrong  
You read me a story  
Yet I don't know what the story means

Chorus
