

# On The Edge

Dyslesia

We are the young ad we're still wanting more  
Nobody will stop us for sure  
Blood is running like the light in the night

We are surfing on the edge of the shore  
We don't know why life still goes on, here on eart  
Think we are sure we're so close we're so strong

When we are looking all around us no reason to stop crying  
We still fight against all of these shades  
Until the day we will die

We don't know why life still goes on, here on earth  
Think we are sure we're so close we're so strong

Chorus:

We are the young and we're still standing so proud  
One day we'll bring the sun in every heart  
We are the young and we're still standing so proud  
Follow the sign and at the end never day die

Chorus

We are still young there's someone so far  
Where will we go he's guiding us through some better times

We don't know why life still goes on, here on earth  
Think we are sure we're so close we're so strong

Chorus
