

Open Your Mind

Dyslesia

Don't follow me into this place of temptation
I never known your name but you're still my tears
Now I'm diving into the sea look at my empty eyes

Bridge:

Don't steel my time
Don't steel my life
The dream is over now

Don't try to understand my deep obstination
I'm walking with my shame hiding behind my fears
you standing right in front of me look at my empty eyes

Don't steel my time
Don't steel my life
The dream is over now

Pre Chorus:

Don't try to come and join me
Lost forever an't you see
Feel the pain inside of me
I lost control of my soul

Chorus:

Dreams are for me it's my reality
Open my mind one day ...I'll be free
Show me the way I'll live another day
And my soul will be mine

Don't try to throw away all this fascination
My spirit is still alive and I am facing the heat
You're searching so far inside of me
I don't even know how to cry

Bridge

Pre Chorus

Chorus
