

Spirit Of War

Dyslesia

Who's watching us living on earth
They see our helpless dying sons
They trusted giving us the world
Where we spread fear and terror

Pre Chorus:

I look in the mirror what do I see
Hatred blood and misery

Chorus:

Some days in history
We can believe and forget
Don't let the future become so dark
Why as paradise so far

War of men, war in the name of god
When bombs and guns replace the words
Agony and death reveals the world
Pray that the sun will shine in the new century

Pre Chorus

Chorus

Some days in history
We can believe and forget
Why y need to feed the flame of hate
Who can see the world is wrong
