Sleep

Searching for my soul Through chasms of my minds Longing my own desire To make me apart of life Round and round this circle turns Never coming to end Hideous games played on my mind Driving me insane This ring of painul delight Resides deep within my brain Insanity comes too naturally When my arms bleed Crossing the sky Deep within these dreams Crashing back to the sea The sleep numbs my mind From todays reality Sleep The dreams will come true My life will be over soon Sleep my child Your life is doomed Sleep
