# Back & Forth

**DZ Deathrays**

It's in your blood, It's all you need
Coming up to take in air, just breathe
Moving forward, it's all you know
Lay to waste while they lock n' load

Say ya want it
The future is now
I don't need it

Say ya want it
The future is now
I don't need it

In the past, we made the kill
Now we're sitting at the bar and grill
Too many people, moving slow
I got a feeling that it's coming to a halt

Say ya want it
The future is now
I don't need it

I don't mind where we're going just not
Back and forth
Yeah just not back and forth

I don't mind where we're going just not
Back and forth
Yeah just not back and forth

I don't mind where we're going just not
Back and forth
Yeah just not back and forth

I don't mind where we're going just not
Back and forth
Yeah

Say ya want it
The future is now
I don't need it

Say ya want it
The future is now
I don't need it
I don't need it

Say ya want it
The future is now
I don't need it

Say ya want it
The future is now
I don't need it
