

# Fear the Anchor

DZ Deathrays

I got a plan  
I'm gonna break the code  
I wanna cut the paper up the centerfold  
I hold my hand  
Close to my heart and face  
I wanna tell you that truth but it's out of place

I won't let the fear wash over  
I won't let the fear wash over  
I won't let the fear wash over  
I won't let the fear

Take a stand  
And so, the feeling goes  
They look for hits  
But you're switching off the episode  
A poison spans  
Right through human race  
You wanna scream that truth but it's out of place

I won't let the fear wash over  
I won't let the fear wash over  
I won't let the fear wash over  
I won't let the fear

Eat my words  
They drip like honey  
There's no difference  
There's no money  
Backwards progress  
Bored and dumb  
They offer up their stupid protest

I won't let the fear wash over  
I won't let the fear wash over  
I won't let the fear wash over  
I won't let the fear

Fear (I got a plan to take a stand)  
Washing over (I got a plan to take a stand)  
F-f-f-f-fear (I got a plan to take a stand)  
Washing over (I got a plan to take a stand, yeah)
