Feeling Good, Feeling Great

DZ Deathrays

Yeah, I could barely dream of a memory
The great idea was awful, you see
Yeah, teach a lesson
Dying without benefit
There's something in the river that swells

You got e-
You got e-
You got everything, you still want more
You got e-
You got e-
You got everything, you still want more

Keep turning, flip that ceiling, baby
Make it something
I can never afford
All the time when a dying generation
Runs everything that's left to the ground

You got e-
You got e-
You got everything, you still want more
You got e-
You got e-
You got everything, you still want more

Are you feeling it?
With your face on the floor
Are you feeling it, are you feeling it
Do you want some more

Yeah lies and secrets, one hit politics
Moving in as fast as you can
Then keep complaining, like you wasted everything
When it's getting close to the end

You got e-
You got e-
You got everything, you still want more
You got e-
You got e-
You got everything, you still want more

When do I get to say
What I really want
Take it out on me
I'll be alright

Are you feeling it?
With your face on the floor
Are you feeling it, are you feeling it?
Do you still want more?

I can't believe I'm sliding off
Sliding off my high
Yeah, alright
Tell me that you're feeling good

Yeah, alright
Tell me that you're feeling
