

High

DZ Deathrays

Walk through the city
Stumble through the paths
I want you committed
To take this task
Until I get it
I won't give up
High on the limit
Take it all too far

I can't lead you, I can't lead you through the dark
Well I need you, well I need you to like the spark
I don't want to hold back
We're not getting sober

Now that's the spirit
It's almost time
The clock is ticking
In overdrive
Don't mind admitting
Silent alarms
High on the limit
Take it all too far

You said all you want
Is another day yeah
Then you were gone
And I'll stay wasted

I'll stay wasted
I'll stay wasted
I'll stay wasted

I can't lead you, I can't lead you through the dark
Well I need you, well I need you to like the spark
I don't want to hold back
We're not getting sober

I can't lead you, I can't lead you through the dark
Well I need you, well I need you to like the spark
I don't want to hold back
We're not getting sober
