

Go into the night air  
Go into the night air  
Go into the night air

Where do you wanna go?  
I don't wanna take it slow  
What are you waiting for?  
I can't be here anymore  
I went to the top  
Would you ever want to stop?  
One more holiday  
There can be no other way  
Go into the night air

Eyes wide tune the clock  
Where's the mercury gonna drop?  
Facing the other way  
Rip the top off cheap champagne  
Marching out the door  
We can't be here anymore  
Oh, oh

Cruel eye resting on your white lie  
Heating up  
Flashbacks feel so good  
I might  
Go into the night air  
Go into the night air

The air is feeling hot  
Breath it in and hold tight  
Nay sayers go away  
Smack talk and ricochet  
I'll wait until the sun spins by  
I'm holding on here, oh

Cruel eye resting on your white lie  
Heating up  
Flashbacks feel so good  
I might

There's something in the way  
Makes me feel good  
Hit with a memory  
I try to breath in  
Breath in

Go into the night air  
Go into the night air

Cruel eye resting on your white lie  
Heating up  
Flashbacks feel so good  
I might go into the night air

There's something in the way  
Makes me feel good

Hit with a memory  
I try to breath in  
Go into the night air  
There's something in the way  
Makes me feel good  
Hit with a memory  
I try to breath in  
Go into the night air  
Go into the night air  
Go into the night air  
Go into the night air  
Go into the night air

(Cruel eye resting on your white lie)  
(Go into the night air)  
(Flashbacks feel so good)  
(I might go into the night air)  
(Go into the night air)
