

# Like People

DZ Deathrays

I don't really like people  
Such a thorn in the side of me  
And I don't really, like being  
Or feeling boring, or try to fake  
Cause I don't really like people  
Making comments, about my teeth  
And I don't really, like seeing  
The news today, I'm trying to breathe

After this, I feel I like you more  
I feel I like you  
After this, I feel I like you more  
I feel I like you

I don't really like people  
Making comments, behind a screen  
Cause I don't really, mind being  
On my own, just for a day  
Sometimes I'm feeling, that people  
Keep on talking over the top of me  
Then I see what, you've created  
I get forgetful but excited  
Excited

After this, I feel I like you more  
I feel I like you  
After this, I feel I like you more  
I feel I like you

I'm not saying it's all too late  
They're calling my name  
They're calling my name  
It means too much, but it's all the same  
I'm not saying it's all too late  
It's in my head  
It's in my head  
I wake up in the morning and it's all been changed

After this, I feel I like you more  
I feel I like you  
After this, I feel I like you more  
I feel I like you

After this, I feel I like you more  
I feel I like you  
After this, I feel I like you more  
I feel I like you

I feel I like you  
I feel I like you
