

# No Talk

DZ Deathrays

I'm on the town  
I got the shakes  
I got the fear, they're putting me away  
You want the chair?  
Or the ground?  
You can't hear the city closing down

I'm gonna need you to look away  
I'm gonna need you to look away  
It's been taken, there's no talk  
Just listen to me, there's no walking on the sidewalk

We're in the crowd  
Raising the stakes  
I got the fear, they're pulling it away  
Don't breathe the air  
Stare at the ground  
You'll never hear the city closing down

I'm gonna need you to look away  
I'm gonna need you to look away  
It's been taken, there's no talk  
Just listen to me, there's no walking on the sidewalk

Yeah, walking on the sidewalk

No luck  
Small talk  
I'm all ears though  
Small talk  
No luck  
You're never gonna hear the sound

I'm gonna need you to look away  
I'm gonna need you to look away  
It's been taken, there's no talk  
Just listen to me, there's no walking on the sidewalk

Walking on the sidewalk
