

Over It

DZ Deathrays

You say you wanna get over, get over it
You say you wanna get over, get over me
I will renew
I will pull through
You say you wanna get over, get over it

See there's something on my mind
The feeling that I've been falling
Keeping all these loose ends tied
You say that forever
We'll still be remembered

You say you wanna get over, get over it
You say you wanna get over, get over me
I will walk too
If I can't hold you
You say you wanna get over, get over it

See there's something on my mind
The feeling that I've been falling
Keeping all these loose ends tied
You say that forever
We'll still be remembered

When I said, I've gone, never be a resonating
Feeling don't know why
When I said, I've gone, never be a resonating
Feeling don't know why
You say you wanna get over, get over it
You say you wanna get over, get over me

See there's something on my mind
The feeling that I've been falling
Keeping all these loose ends tied
You say that forever
We'll still be remembered
