

Witchcraft - Pt. II

DZ Deathrays

Lost in the woods
Misplaced my brain in a well
Did things I don't think I should
Saw you there
Eyes wide
Dead stare

She'll be your lover
When you need a friend
Feel your blood colder
When she takes your hand

I put my face in my hands
Sweat drips as I try to understand
I feel my brain spinning in my skull
I hear the wolves on the side of the mountain

I hear the wolves on the side of the mountain
I hear the wolves on the side of the mountain
I hear the wolves on the side of the mountain
I hear the wolves on the side of the mountain

Lost in the woods
Misplaced my brain in a well
Did things I don't think I should
Saw you there
Eyes wide
Dead stare

She'll be your lover
When you need a friend
Feel your blood colder
When she takes your hand

Out of body
Fell in love

Once you see the witch
It's never gone
It's never gone

Once you see the witch
It's never gone
It's never gone

Once you see the witch
It's never gone
It's never gone

Once you see the witch
It's never gone
It's never gone
