

Incomplete

DZIARMA

Hold it
Love it
Hold it
Eat it
Take it
Touch it
Kiss it
Feel it

Hold it
Love it
Hold it
Eat it
Take it
Touch it
Kiss it
Feel it

Soak in your sweet skin
Inhaling your past
You got me turned up
You got me so fucked up
So can your system blow your mind tonight
With every touch my gift
Open up your eyes

And After all I'm running
Running, running
My feet are burning, burning, burning
Open up your eyes

Hold it
Love it
Hold it
Eat it
Take it
Touch it
Kiss it
Feel it

Your lipstick purple green green
Open up your lungs
Let me in!
Eyes fill with treasure
I want to take all
Love you can't measure
So baby take me home
I feel love again
I want to penetrate you
I wonder what it's like to
Live inside you
Give me one touch
Give me one night
Feel so wrong
But it's so damn right

And After all I'm running

Running, running
My feet are burning, burning, burning
Open up your eyes

Hold it
Love it
Hold it
Eat it
Take it
Touch it
Kiss it
Feel it

And After all I'm running
Running, running
My feet are burning, burning, burning
Open up your eyes

My heart was stolen from me
And After all I'm running, running, running
My feet are burning, burning, burning
I'm incomplete
Do you want me?
And After all I'm running
Running, running
My feet are burning, burning, burning
I'm incomplete
Do you want me?
I'm incomplete
Do you want me?
