E-40

(B-Legit) Niggas gettin' smoked for no reas'  
(D-Shot) Niggas livin' broke, no cheese  
(Suga T) They ain't got no hope, no dreams  
(E-40) Man, I blame these niggas' OG's  
The Mekanix  
(E-40) Man, I blame these niggas' OG's  
(E-40) Man, I blame it on the OG's

I've poppin' for a minute now, and it ain't no stoppin'  
Spittin' game all over the popper stopper  
Mobbin', P's poppin'  
I love my litttle niggas, I promise you, I ain't hatin'  
But I swear to mob, my nigga, it's like they skipped a generation  
A lot of my little ninjas is polished, no debate  
They don't do sucka shit that we don't tolerate  
Man, I blame these niggas' OG's, hope it haunt 'em  
They analyze you but you dropped the ball on 'em

The future look bright on a sunny day  
Real ass niggas paved the way  
Shoutout to the youngstas, papered up  
Little young playas, off the cuff  
Y'all peeped out the map that us G's wrote  
Influenced by the swag that us G's wrote  
Homie, we done learned from the city streets  
I'm still a young monster packin' heat

Now I done seen a lot, even dreamed of it  
Put it on for my block and the team love it  
Exotic smoke bag 1300  
Humble dude, never rude, never even stunted  
I tell a young lad, "Boy, get your bag  
And fuck livin' lav, nigga, make it last  
Fertilize the stash, homie, grow the grass  
Gotta take it real slow when you're livin' fast"

I skipped recess, I don't ever play  
Bring the bag, break me off, make your nigga break the bread  
She be that bad chick, she schooled your daughters  
Rockin' with the mob, Magazine, where it's ordered  
Some people call me "Tee-Tee", some people call me Shiniko  
Back in the mannish days, I used to live my life illegal (Yee!)  
Back in the glory days, I used to cock  
Got in the rap game and then I stopped, ugh!
