

Green Light

E-40

Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight

It is what it is, we don't talk about it
Fucked the money up, hella hot about it
Time permit, we gon' walk around it
Dance with the body, run through his pockets
Chopsticks for the enemy
Hennessy, Backwood full of lemon tree
Told niggas from beginning, see
I'm a dog and G, so we'll see

It cost seventy-five hundred for a proper barrier
Stick to your levels to pick you up and carry ya
Honey badgers, piranhas, my bull terriers
Green light all you niggas, the more the merrier
Killers move in silence and they stick to the plan
Plan number one, never show your hand
You niggas play too much, flexin' on the 'Gram
Telling on yourself, wet snitchin'

It's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)

You know how they always say you can't bend a tree when it's old?
Well, I'm a fixture, mayne, I sticks to the code
Leaning against the door of my next door neighbor and them low
With a pistol up in my backpack, mayne, the kind that unfold
My nigga, I'm thowed

I double back like I seen somethin'
Codeine on a nigga, might lean somethin'
Ladder in my lap, got the beam jumpin'
Bounty for the body, whole team huntin'
And we don't trust nothin'

I was asking myself the other day

How the OGs toleratin' this sucker shit, it ain't okay
They don't listen, that's what they say
Little niggas in they own way

Ay, what if I told you you could keep it real
And you ain't gotta talk, you ain't gotta squeal
Never give a name, never make a deal
Little nigga did, now we on his heels

Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight (On sight)
Your head got the green light (Green light)
Your head got the green light (Green light)
Yeah, man, it's on sight
