

My Everything

E-40

Make a song about my old lady, mayne
My spouse, my wife, mayne
Know what I'm talkin' about? My soulmate
My better half, my everything

From a promise ring to an engagement ring to a wedding ring
You're everything, I'm your king, you're my queen
When I was sleep, lookin' in at an octagon, doin' my thing
You had my back, my spinal, and my spleen
You was there with me, you never left me, you was down
They don't make 'em like you no more, ain't none around
Had to take time to show my appreciation
All this time that I spent, you had patience
The lady aging backwards, looking younger
I'm proud to be your fella, it's an honor
Your personality and your persona
No childish, no stirrin' up no drama

(Baby, you're my)

You are my everything (You know), my everything
You are my everything, my everything
You are my everything (My, my, my, my, my), my everything
You are my everything (Yeah, yeah), my everything

I thank you, my dear, for not lettin' 'em in your ear
Misery love company, listen here
It's our anniversary, darlin', and it's another year
You make a gangsta wanna shed a tear
We was livin' off of love (Livin' off of love)
Kiss and hug (Kiss and hug)
Got your pregnant (Got your pregnant)
Wear no glove (Wear no glove)
You gave me a child and another child, it was cool
Couldn't wait to put 'em in a car seat and take 'em to pre-school
Salute to your mama for acceptin' me in y'all family
And your granny for giving you all of her secret recipes (Thank you, mama)
I applaud you for being faithful and being sweet (Yes you are)
Used to be on the block with me on Magazine Street (Sho'nuff)
You look better than the day we met
We might argue but make-up sex is the best (Sho'nuff)
Got my name tatted on your flesh
I thank the Lord for you because I'm blessed

(You are my everything)

You are my everything (My, my, my, my, my, my, my), my everything
You are my everything, my everything
You are my everything, my everything
You are my everything, my everything
You are my everything (Yeah yeah yeah), my everything
You are my everything, my everything
You are my everything, my everything
You are my everything, my everything

You bring me, bring me, bring me joy
Wanna let you know
You bring me, bring me, bring me joy
You

Make a man feel like a little boy
You bring me up when I'm down
Make my life go round and round
You are my everything
Everything
You bring me up when I'm down
Make my life go round and round
You are my everything
You know and you know, you know
Baby, you're my
Ooh yeah
My everything, baby
Yes you are
God knows you're everything I ever needed
Yes you are
More than I prayed for, baby
Forever, forever my lady
God knows you're everything I ever needed
Yes you are
