E-40

The red and blue lights

They out here I can see em family  
The red and blue lights

Don't make me get flexin on a bitch neck  
Are you subliminally banging when you screaming red and blue  
Do you bang I don't but my music do  
Yea I know a few few few soop  
I also got a few ooh oooh  
Me and my crew we some dude dudes  
Just like a mechanic we got tools

Them copper color slugs and get away  
It's like the National Geography the animal kingdom in my county  
They'll force one in your skull and open up your chest cavity  
I ain't got time to be drag my feet and beat my meat I'm tryna eat  
These trifflin ass scammers in these days and times  
These nigga hella weak minded pitchin a bitch cryin  
Waiting for opportunities to fall in their lap instead a tryin

I don't go lookin for trouble but trouble be findin me tho  
Tryna buba like sparks in the wider pebble green tho  
How come blacks can't live together and get along like filipino  
Only time we get along is when we going throu chemo  
I'm in the hood like a low court tree check it  
Know what I can not what I could respect it  
I'm the man and everybody know it's right  
If you treat the homies right they'll treat you right  
I ain't shallow I'm deeper water I sleep you seven days you weak  
Neva get on the stand a speak when you in the hot seat  
Neva play forgives always play for keeps get out  
When you get mad at if you get frogish and leap bitch
