UH!

Spark one for the dark one, let's blast off  
What kind of tree is that, huh? Strawberry cough  
The contact alone will have you higher than Mt. Everest  
Have you blowed as fuck ignoring your text messages  
I'm at the intersection at the light smoking, inhaling it  
Getting right, I bet the car next to me they smelling it  
Honey tight, I like the way she looking and peeping  
(What else?) She act like she want some dick, wanna fuck with a heathen  
I said "What's happenin', baby girl, what you got up for the evening?  
Let your hair down 'cause sweetie it's the weekend  
Come and get with a real one, 86 that square"  
You say that every time you wanna fuck he ain't there  
You and your bitches can smoke with me and my niggas  
And me and me my niggas can smoke with you and your bitches  
We got trippy sticks, volcano, vaporizers and edibles  
Smoked 448 grams of vegetable

'Cause ain't no stress, I'm never worried  
I'm smoking shit you ain't never heard of  
So bitch pass it back  
I know what you thinking, don't ask me that  
'Cause I'm talented, and I'm gifted  
I smoke every day 'cause I'm addicted  
Before I pass my weed to bitches  
I pull my dick out and tell her 'hit this'  
Bitch, puff on these nuts  
All you wanna do is just smoke the weed up  
I'm 'bout to pull a all-nighter  
And pass this bitch the lighter

Smoke it (BITCH!)
