

## Wake They Shit Up

E-40

Act like you forgot about it, let some months go by  
Let everything just simmer down  
And just when them niggas think you let that shit go  
Slide through and wake they shit up  
Act like you forgot about it, let some months go by  
Let everything just simmer down  
And just when niggas think you let that shit go  
Slide through and wake they shit up  
Wake they shit up

They homie gone, got his name still they contacts  
His mama on dope again and she relapsed  
Them and they potnas put R.I.P. in they bio  
Vow to revenge death on the Bible  
It's bad and it's ugly, it's on on sight  
The streets be talkin' and watchin'  
What's in the dark gon' come to light  
The perpetrators think they cowards and they squibble  
What they fail to realize is they got some change on their hair  
The youth activists try to do what they can and extend their hand  
With non-profit organizations and guns buy back programs  
It's only so much they can do, they used to be like them  
Back and forth to juvy, in and out the pen  
The system's corrupted, want us to suffer  
Designed for Black and Latinos, people of color  
Karma used to take three years but it now it take 30 seconds  
And it's a blessing to be living, ain't no question

Act like you forgot about it, let some months go by  
Let everything just simmer down  
And just when them niggas think you let that shit go  
Slide through and wake they shit up  
Act like you forgot about it, let some months go by  
Let everything just simmer down  
And just when niggas think you let that shit go  
Slide through and wake they shit up  
Wake they shit up

Yeah, I kick back about 90 days  
I ain't trippin' off niggas, man, I'm out the way  
Got a bunch of dirty work out in San Jose  
Whatsapp if you ever tryna run the play  
Heard numbers goin' up, we ain't givin' in  
Never fold, I was told that ain't how you win  
Strategize, map it out 'fore you blap it out  
Couple hundred on the floor, we'll pack it out  
When I move through the city I be on the dolo  
Most likely with a bag, I don't do the po-po  
Hellcat with a stick 'cause you never know though  
Got my own damn back with the .40 4-4  
If you really into game then you really know this  
When shit be goin' good that's when niggas get hit  
It could be your own hood, set you up with a bitch  
Sniper on the roof and he fully equipped with clips

Act like you forgot about it, let some months go by  
Let everything just simmer down

And just when them niggas think you let that shit go  
Slide through and wake they shit up  
Act like you forgot about it, let some months go by  
Let everything just simmer down  
And just when niggas think you let that shit go  
Slide through and wake they shit up  
Wake they shit up

UH! It take a fool to catch a fool, that's what they say  
But nowadays, anybody can get the AK  
AR-15, create a crime scene  
All it take is some gouda to formulate a team  
Some of these fools is bad news  
Some of these fools get down but some don't think about they dudes  
They loved ones, they cousins, they next of kin  
They mommies, they daddies, they baby mamas and they kids, UH!  
Get caught in the crossfire  
Funkin' over these bitches, these bitches be liars  
Don't be tellin' her all your business, you could get flat like a tire  
She scandalous and she vicious, get you sent to the Kaiser  
She fuckin' him, she fuckin' him, she fuckin' him  
At the same time, she robbin' him  
Karma used to take three years but now it take 30 seconds  
And it's a blessing to be living, ain't no question

Act like you forgot about it, let some months go by  
Let everything just simmer down  
And just when them niggas think you let that shit go  
Slide through and wake they shit up  
Act like you forgot about it, let some months go by  
Let everything just simmer down  
And just when niggas think you let that shit go  
Slide through and wake they shit up  
Wake they shit up
