

## Cold Case

E-Rotic

It's a cold case  
It's a cold case

I lost you  
You went away, my soul it screams  
Simply daunt what a thought was life  
Change my dreams by the faults of our extremes  
I know my love never could survive  
'Cause you left me only  
I'm feeling lonely

It's a cold case  
You're killing my heart in cruel way  
You tear us apart  
It's a cold case  
It seems that we can't survive  
'Cause I'm feeling lonely  
Cold case  
You're killing my heart in cruel way  
You tear us apart  
It's a cold case  
It seems that we can't survive  
'Cause you left me only  
I'm feeling lonely

I believe you will never wait for me  
There's no way getting back to us  
Turn my nights to some dark eternity  
You made our lives turn their way to dust  
I fear we will never  
Get back together

It's a cold case  
You're killing my heart in cruel way  
You tear us apart  
It's a cold case  
It seems that we can't survive  
'Cause I'm feeling lonely  
Cold case  
You're killing my heart in cruel way  
You tear us apart  
It's a cold case  
It seems that we can't survive  
'Cause you left me only

It's a cold case  
You're killing my heart in cruel way  
You tear us apart  
It's a cold case  
It seems that we can't survive

It's a cold case
