

# Don't You See the Light

E-Rotic

Angels of blue - tears in the night  
Shadows of fear joined for a ride  
The journey goes on  
Now that you've gone

Why did you leave - where did you go  
Tomorrow there'll be another show  
You're heart's on the run  
What have i done

Don't you see the light  
Don't you see the shine  
Falling through the night  
Make you feel divine  
Don't you see the light  
Don't you see the star  
Telling you i'm still  
In your heart

Don't you see the light

We just gave up - we had to fight  
Lost our dreams in the heat of the night  
Fear's like a shark  
Out in the dark

What did you mean - what did you say  
Feeling of pain led us astray  
What can i do  
Keep thinking of you

Don't you see the light  
Don't you see the shine  
Falling through the night  
Make you feel divine  
Don't you see the light  
Don't you see the star  
Telling you i'm still  
In your heart

Don't you see the light

Baby come back come back to me  
I know that you're my destiny  
I wonder if your soul can see  
The light - the light

Don't you see the light  
Don't you see the shine  
Falling through the night  
Make you feel divine  
Don't you see the light  
Don't you see the star  
Telling you i'm still  
In your heart
