

Tempt Me On The Line

E-Rotic

Hallo?

Hi it's me. What are you doing right now?

Nothing special - just longing for you

Tempt me on the line

Make me feel divine

Oh baby let's make good love from a distance

Tempt me on the line

Prove that you are mine

I gotta, gotta get a bit of your assistance

Tempt me on the line

Tempt me on the line

Can you feel me, oh it's okay

I'm with you though, I'm far away

Just imagine that I'm close

I'm your thorn and you are my rose

Move your body, feel the heat

I know everything you need

Listen to my words and then

Do it, baby do it again

You and me forever

Tempt me on the line

Just lie down and close your eyes

Baby listen to my advice

Just imagine I'm by your side

Makin' love with you tonight

Can you feel my fingertips

Feel my kisses on your lips

Baby you are not alone

When you hear me on the phone

Is this the way you want it baby? (okay)

I'll touch you where I know you want it most...

Tempt me on the line
