Into the night I am falling With no one by my side Missing your love warm and tender My heart feels like a satellite I wish yes I wish you were here In the dark of the night And I miss you like crazy I wish - Yes I wish you were here Want you right by my side So the nightmares won't chase me Babe it's more that a feeling That sometimes comes and goes I will hold you forever You can trust me heaven knows I wish - Yes I wish you were here Cos I'm lost on my own Torn between my emotions I wish yes I wish you were here And I feel so alone Like a tear in the ocean I wish - Yes I wish you were here Cos I'm lost on my own Torn between my emotions I wish Oh I wish you were here And I feel so alone Like a tear in the ocean I wish you were here
