

# Ding Ding Song

E-Type

When you called me tonight from your ding ding world  
everything but alright was your dingaling words  
what you're doing with your life in your bling bling  
world  
what's wrong with your mind in your swingaling twirl

I'm fed up with your ding ding world  
so shut up with your dingaling words  
you can stay in your tree, as long as you let me be  
don't wanna see no more

You keep crossing every line  
you're missing all the signs  
with the damage already done, I'm gone  
you keep crossing every line  
get back to your own side  
now the battle's already won, who's wrong

Oh yeeah  
(Who's wrong)

Now what's really really up with your ding ding head  
I am all fed up with your crowded bed  
all your crap has gone straight to your bling bling  
head  
you make me see dingalingaling red

I'm fed up with your ding ding world  
so shut up with your dingaling words  
you can stay in your nest, dressed for success  
don't wanna hear no more

You keep crossing every line  
you're missing all the signs  
with the damage already done, I'm gone  
you keep crossing every line  
get back to your own side  
now the battle's already won, who's wrong

Oooh yeaah  
(Who's wrong)

Oh no, you're crossing every line  
No no  
Oh no, you're missing all the signs

No no, I'm all fed up, don't wanna hear no more

Oh no, you're crossing every line, I'm gone  
No no, I'm all fed up, don't wanna see no more
