

# Far Up In The Air

E-Type

When everything I do just make  
me feel the same  
I need to get away  
To somewhere far away  
I wonder, why is that  
I can't play the game  
And find another way  
To focus and take aim

Going away to clear my mind  
I know I need it when  
I have to start again  
Going away, I know i'll find  
Somewhere I can be myself once again

Whenever I am far up in the air  
No one knows where I am  
Where I'm going  
So far up in the air  
Trying to let go  
Cause here I know how  
To live day by day

I know that this can't be  
nobody's fault but mine  
Tried to be everywhere  
Like anyone would care  
I always thought that everything  
would be just fine  
If I just played it fair  
But now I crossed the line

Going away to clear my mind  
I know I need it when  
I have to start again  
Going away, I know i'll find  
Somewhere I can be myself once again

Whenever I am far up in the air  
No one knows where I am  
Where I'm going  
So far up in the air  
Trying to let go  
Cause here I know how  
To live day by day

You know I'll be there  
When you feel that I'm drifting away  
You know I'm far from here  
But you know I still care  
You know I still care
