

All You Got

Eagle Eye Cherry

You feel invisible
Standing in your own shadow
Nobody knows who you are
Undercover superstar
Don't let them get to you
Show them all what you can do
Step out into the light

Now you're giving it, giving it, giving it all you got
All your life you've waited to get this one shot
Yeah you're giving it, giving it, give it your best
Show them who you are
Keep the fire burning in your heart
Nobody can keep you in the dark

When you reflect on this
All the years that they have missed
This used to bother you
But now they'll know what you can do
So baby hit floor
Show them all what your good for
Step out into the light

Now you're giving it, giving it, giving it all you got
All your life you've waited to get this one shot
Yeah you're giving it, giving it, give it your best
Show them who you are
Keep the fire burning in your heart
Nobody can keep you in the dark
Keep the fire burning in your heart
Nobody can keep you in the dark
Keep the fire burning

Step out into the light

Now you're giving it, giving it, giving it all you got
All your life you've waited to get this one shot
Yeah you're giving it, giving it, give it your best
Show them who you are
Keep the fire burning in your heart

Now you're giving it, giving it, giving it all you got
All your life you've waited to get this one shot
Yeah you're giving it, giving it, give it your best
Show them who you are
Keep the fire burning in your heart
Nobody can keep you in the dark
