

# Call This Love

Eagle Eye Cherry

If I stay here waiting long enough  
Would you come in and pull me out  
All those times you said we're not enough  
Were you trying to let us down

Maybe all I need is patience  
Maybe all I need to save us  
Not to make a sound

If when you say it  
It hurts too much  
Don't have to even call this love  
'Cause we have today  
And that's enough  
Don't have to even call this love  
Call this love  
Call this love

Hard is not to take this personal  
When you leave me without a doubt  
Disappearing as the shadows fall  
Two of us fading out

Trying to find the places  
In-between the spaces  
That don't make a sound

If when you say it  
It hurts too much  
Don't have to even call this love  
'Cause we have today  
And that's enough  
Don't have to even call this love  
Call this love  
Call this love

If you want me to follow blind  
Close my eyes to all those signs  
Then at least tell me why

If you can't say it  
When it comes to us  
If you can't even call this love

I'll walk away  
If I must  
I won't even call this  
Call this  
Call this love  
Call this love
