

## Golden

Eagle Eye Cherry

Sunset and the news breaks  
You couldn't wait for the curtain call  
A break-up that'll resonate  
But that's ok I'll take the fall  
I guess that's the end of you and me  
The end of it all  
I can't help but to contemplate  
That we could've been more than special

Baby, we were golden  
Crashed into the ocean  
Great 'til we exploded  
Tell me when it's over

I get along with every hotel room  
I hear you're back at the old house  
Did you tell you me you met someone?  
I couldn't hear cuz the music's loud  
So tell me if you are still mad at me  
I wanna figure this out  
Can you admit that we had some fun  
That we could've been more than special

Baby, we were golden  
Crashed into the ocean  
Great 'til we exploded  
Tell me when it's over  
So much for devotion  
Took my love and broke it  
Can't see through the smoke and  
Did you even notice?

Baby we were golden  
And we could've been more than special

And we could've been more than special  
Baby we were golden

But baby, we were golden  
Crashed into the ocean  
Great 'til we exploded  
Tell it's not over  
So much for devotion  
Took my love and broke it  
Can't see through the smoke and  
Did you even notice?
