

# Kansas

Eagle Eye Cherry

Ain't no place like home  
Ain't no place like home

What is the matter  
Are you down on your luck  
Feeling so lonely  
Can't find what you not  
How did you get here  
Did you fall from the sky  
All you know you got to go

You wanna go back to Kansas  
There's no place like home  
Go take your chances  
On yellow brick road  
Over the rainbow  
You're gone with the wind  
All you know you got to go  
There ain't no place like home  
There ain't no place like home

Now that you found him  
The answer to your cause  
You're disappointed  
He's no wizard of Oz  
You run out of options  
You run out of hope  
All you know you got to go  
Knowing there's no place like home

You want to go back to Kansas  
There's no place like home  
Go take your chances  
On yellow brick road  
Over the rainbow  
You're gone with the wind  
All you know you got to go  
There ain't no place like home  
There ain't no place like home  
There ain't no place like home  
There ain't no place like home

Cowardly lion  
And the scarecrow  
You're going to miss them  
More than you know  
You put on your slippers  
You're dying to go  
Knowing there's no place like home

You want to go back to Kansas  
There's no place like home  
Go take your chances  
On yellow brick road  
Over the rainbow  
You're gone with the wind  
All you know you got to go

There ain't no place like home  
There ain't no place like home

You want to go back to Kansas  
There's no place like home  
Go take your chances  
On yellow brick road  
Over the rainbow  
You're gone with the wind  
All you know you got to go  
There ain't no place like home
