

One In A Million

Eagle Eye Cherry

You're just one in a million
Nobody thought you were going for that
You're just another civilian
Don't even know if you wear your hat

But I believe in you, believe in me
We all believe it's true

So you got a job (yea yea yea)
And now you found out (yea yea yea)
The important friends and a fancy car
Do you believe it's true?

One in a million yea yea yea

You got yourself a pavilion
Still wish you lived on the other side
You only wanted a million
But never seem to be satisfied

I believe in you, believe in me
We all believe it's true

So you got a job (yea yea yea)
And now you found out (yea yea yea)
The important friends and a fancy car
Do you believe it's true?

You want, you need, you wish to be
Just like you've seen on your TV
You can't, you don't, you won't believe
You're just one in a million yea yea

So you got a job (yea yea yea)
And now you found out (yea yea yea)
The important friends and a fancy car
Do you believe it's true?
('Cause you're just one in a million)

So you got a job (yea yea yea)
And now you found out (yea yea yea) (found out)
The important friends and a fancy car
Do you believe it's true?

One in a million yea yea yea
You're just one in a million oh yea
