

# Remember to Breathe

Eagle Eye Cherry

Goodnight, Marie  
It's time to go to bed now  
But you notice that I don't wanna go  
Suddenly  
I'm hearing what you said now  
And I hold my breath as you close the door

When you're looking at me  
The world ceases to be  
I find myself not wanting to leave  
And I want you so much  
But we don't even touch  
I remind myself, "Remember to breathe"  
I remind myself, "Remember to breathe"

Goodbye, Marie  
Goodbye to me  
Now I wonder who I was before you  
Pray for me  
You gotta pray  
And I hold my breath, don't know what to do

When you're looking at me  
The world ceases to be  
I find myself not wanting to leave  
And I want you so much  
Rut we don't even touch  
I remind myself, "Remember to breathe"  
I remind myself, "Remember to breathe"

If you don't know what you've got  
You'll never get it right  
I find myself not wanting to leave  
If you don't know what you've got  
You'll never get it right  
I remind myself, "Remember to breathe"

I remind myself, "Remember to breathe"
