

Thinking About You

Eagle Eye Cherry

Can you love somebody that you never met?
I can't stop thinking 'bout you
Can you miss somebody that you don't know yet?
I can't stop thinking 'bout you

When I saw you, you didn't notice
One of those moments just passing by
You don't know this, but I fell hopeless
Right on that corner, lost track of time

Can you love somebody that you never met?
I can't stop thinking 'bout you
Can you miss somebody that you don't know yet?
I can't stop thinking 'bout you

C-c-can't stop thinking about, can't stop
I can't stop thinking about you
C-c-can't stop thinking about, can't stop
I can't stop thinking about you

I've been asking, but no one knows you
Like a ghost you were here and gone
I'm still hoping to see you again
I'll wait forever if it takes that long

Can you love somebody that you never met?
I can't stop thinking 'bout you
Can you miss somebody that you don't know yet?
I can't stop thinking 'bout you

C-c-can't stop thinking about, can't stop
I can't stop thinking about you
C-c-can't stop thinking about, can't stop
I can't stop thinking about you

Everyone walked by
In this city, ain't no love for free
When I saw your smile
I believe in something more than me
No, I can't stop thinking, can't stop thinking
Can't stop thinking about you

Can you love somebody that you never met?
I can't stop thinking 'bout you
Can you miss somebody that you don't know yet?
I can't stop thinking 'bout you

C-c-can't stop thinking about, can't stop
I can't stop thinking about you
C-c-can't stop thinking about, can't stop
I can't stop thinking about you
