

We Ain't Dead

Eagle Eye Cherry

Once again I've hit the ground
My regrets, I've let you down
That was then, don't you worry
Don't wanna be what you always see
This is me, I'm bittersweet
You wanna leave, but, baby, what's the hurry?
We ain't dead
We ain't done
We've just begun

I know that we've been through a lot
Some was bad, and some was not
You bail me out of all my sorries
You saw it all, you watched me fall
You helped me up as I recall
What went wrong with all my glory?
We ain't dead
We ain't done
We've just begun

No we ain't dead
We ain't done
We've just begun

Well I know that I
I told you lies I sure is true
And I know that I can make you understand
I know that I
Have a lotto prove to you
I know that I can be a better man

We said somethings and clipped our wings
Now we know what sadness brings
Wish that I could change this story
If I stand alone from this day on
All I got is all that's gone
Please, please, please don't leave me
We ain't dead
We ain't done
We've just begun

We ain't dead
No we ain't done
We've just begun

Well I know that I
I told you lies I sure is true
And I know that I can make you understand
And I know that I
Have a lotto prove to you
I know that I can be a better man

We ain't dead
We ain't done
We've just begun

No we ain't dead

We ain't done
We've just begun
Yeah

We ain't dead (We ain't dead)
We ain't done (We ain't done)
We just begun

We ain't dead
We ain't done
We've just begun
