

Enemy Within

Eagleheart

Thrown into the maze of the world
Fully armed with naivety
Chasing the pictures of past
What's left of myself is just an echo

Regrets is all that remained of the man that you used to be?
Is living so harder than dreaming in rooms of your wasteland?

Hear the words that I say
You're shaping your destiny
Why can't you see?
No, I followed my way
To ruins and decay

Time wipes away tears and agony
With passion and heat
Sweet apathy
Is feeding your own enemy

Wounds that I blame myself for
Condemned to irony
All the doubts will eat your brain
Not being sceptical
Is worth the pain

I doubt the words that you say
Can't undone my history
Why can't you see?
Cease from leading astray
To rise from decay

CHAINS OF SHADOWS BIND YOUR MIND
A PRODIGY PARALYZED
WASTE THE ENEMY INSIDE FOR RECREATION

So your dreams are torn asunder
Are you the one to blame?
Through the bitter tears you wander
Towards the brand new day

Once upon a time we painted a universe
Now it's lost and gone
A whispering of my perception

Everything I conceal within inner universe
Laughter, pain and tears
Now will regain my domination
Enemy within erased

Time wipes away tears and agony
With passion and heat
Sweet apathy

CHAINS OF SHADOWS BIND YOUR MIND
A PRODIGY PARALYZED
WASTE THE ENEMY INSIDE FOR RECREATION
