Treat me like I'm the problem, but
Here I am tryna fight your flames
Tryna say that I caused 'em,
But, you're the one with the hot head, babe

Oh now you lashing out
Spit fire straight from your mouth
You torching everything down
And you still want me to stay

Asked for a light
So I gave it to you
Now you're burning up your life
But you did it to you
And I hate to see you hurt
But you really gotta learn
So

Burn baby burn
Burn baby burn
Now it's your turn
See how it hurts
So burn baby burn

So I guess I'm the problem yeah
Yeah I guess all the blame's on me
I'm a mess of a human huh
But I'm clean outta sympathy
Oh now you lashing out
You camping out by my house
I said I'll see you around
But I didn't mean literally

Asked for a light
So I gave it to you
Now you're burning up your life
But you did it to you
And I hate to see you hurt
But you really gotta learn
So

Burn baby burn
Burn baby burn
Now it's your turn
See how it hurts
So burn baby burn

Yeah, yeah
Yeah, yeah

Now it's your turn
See how it hurts
So burn baby burn

Burn baby burn
Burn baby burn
Now it's your turn

See how it hurts
Burn baby burn
