

# lennon

eaJ

I could be your John  
Could you be my Lennon?  
Just imagine  
Bedroom melodies  
Loud and active  
Passion is passing, but who cares  
Would you mind my love?  
For a second  
Could you hold it with your purse like you meant it?  
Like you meant it

Dancing with the lights all off  
Nothing feels  
Better than you  
And we might go and break our hearts  
But it happens  
And that's cool

It's a shame  
The moon can't stay  
And we dance one more night  
So we might go and break our hearts  
But that's cool  
If that's cool with you

There's no shame  
In mild loving for a day  
Fast food relationships they always bring weight they fast  
With short-lived laughs  
The best part  
You always gonna heal back fast  
So empty, maybe my soul  
But my spirit is high on hopes  
Dead and dull have taken my bones  
For a second, won't you be my home?

Dancing with the lights all off  
Nothing feels  
Better than you  
And we might go and break our hearts  
But it happens  
And that's cool  
Dancing with the lights all off  
Nothing feels  
Better than you  
And we might go and break our hearts  
But it happens  
And that's cool

It's a shame  
The moon can't stay  
And we dance one more night  
So we might go and break our hearts  
But that's cool  
If that's cool with you  
  
But that's cool

If that's cool with you  
But that's cool  
If that's cool with you
