

merry go round

eaJ

We fight, get back together
Turning tables like a merry-go-round
I can't live with or without you

Only call me when it's late
And you wanna make mistakes
Pause
Lights off, then on and on and on

Why we trying to hit the brakes?
Gonna happen anyway
Hearts want what they want...

I want you and the madness
It takes two
And I'm half of the problem, I know
Something 'bout you makes me lose control
Round and round we go

We fight, get back together
Turning tables like a merry-go-round
I can't live with or without you now
I say that I'm better off without you
But I still got my doubts
I can't live with or without you now
With or without you now

And I know it never fails
In the morning, you'll be taillights
Thank God you're gone
And then—
Want you, want you right back

I want you and the madness
It takes two
And I'm half of the problem, I know
Something 'bout you makes me lose control
Round and round we go

We fight, get back together
Turning tables like a merry-go-round
I can't live with or without you now
I say that I'm better off without you
But I still got my doubts
I can't live with or without you now
With or without you now...

We fight, get back together
Turning tables like a merry-go-round
I can't live with or without you
I say that I'm better off without you
But I still got my doubts
I can't live with or without you now
