

# Pillows

eaJ

Give me your loneliness and I'll give you mine  
Leave all your tears by your bedside, and let's live a night  
I know you feel a mess and your pillow won't dry  
Come lay on me and step in, no mind

To the voice in your head  
Pulling old memories  
Making their circles around your bed  
Late A.M. is always when they try and start their run  
So come to me when no demons come

Give me your loneliness and I'll give you mine  
Leave all your tears by your bedside, and let's live a night  
I know you feel a mess and your pillow won't dry  
You come lay on me instead for a night

(So the pillows) dry themselves off  
(And) We can go home  
(After) this is all done  
(And) wet them once more  
(We'll) live all night long  
(And) we can go home  
(After) this is all done  
(And) keep hoping for more

Come over, tell me about it  
Come closer, dance around what you wanted to say  
But I know what you came for  
Give you what you came for  
Shawty know better than to tempt me  
I'ma give it every way you tell me to  
I'ma take it slow like candy  
Baby girl, let me know if you wanna take two  
Side to side wit' it  
Ride to die wit' it, you don't gotta hide wit' it  
Way too many options, you need somethin' constant  
You need somethin' that you can hold on to  
'Til then I'll hold onto you

Give me your loneliness and I'll give you mine  
Leave all your tears by your bedside, and let's live a night  
I know you feel a mess and your pillow won't dry (Dry)  
You come lay on me instead for a night

(So the pillows) dry themselves off  
(And) We can go home  
(After) this is all done  
(And) Wet them once more  
(We'll) Live all night long  
(And) We can go home  
(After) This is all done  
(And) Keep hoping for more  
On wet pillows
