

All Over Love

Eamon

Hard to believe it, its kinda amazing, but its true, now that I neede
d

Someone so special, here comes you.

So how am I crazy, to say that I'm dreamin over you

Someone so special, how could you say this all so cruel.

So when your sayin that you need love

I look at you, and kinda smile

It's very hard just to convince baby, so maybe this will take awhile.

Cause all that I wish for, is just to be with you baby

With alittle love and squeezin and hold you close, girl its drivin me
crazy

All over love (all over love)

All over love (all over love)

All over love (all over love)

All over love

Now that we started, lets make a relationship at last

Getting to know you, with nothin to owe you so I ask

Lets keep this real simple, we know that material things won't last

Show me you love me, if anythings different, then I'll pass

So when your sayin that you need love

I look at you, and kinda smile

It's very hard to just to convince you baby, so maybe this will take
awhile

Cause all that I wish for, is just to be with you baby

With alittle love and squeezin and hold you close, girl its drivin me
crazy

All over love (all over love)

All over love (all over love)

All over love (all over love)

All over love

Cause all that I wish for, is just to be with you baby

With alittle love and squeezin and hold you close, girl its drivin me
crazy

All over love (all over love)

All over love (all over love)

All over love (all over love)

All over love

Cause all that I wish for, is just to be with you baby

With alittle love and squeezin and hold you close, girl its drivin me
crazy

All over love

All over love
All over love
All over love
