

Come On Through

Eamon

Step on into the sunshine
Take a walk in the clouds
We done seen enough time fly
What you worried about
Put your shoes on, shake them nerves off, meet me there tonight
Just a couple of fools now
Once we under them lights

Don't need no invitation
Don't need no alibi
Just come on through (come on through)
Come on through (come on through)
Forget your hesitation
Don't let it pass you by
Just come on through (come on through)
Come on through (come on through)
Yeah I'm talkin' to you

See I need you, you need to (just come on through)
'Cause I got you, you got to (just come on through)

Heard you lackin' some feel good
Huddled up in the house
Heard you stuck in the cage now
And you're ready to pounce
Leave your baggage, where you found it, walk on out that door
Don't you leave me alone now
I need you out on the floor

Don't need no invitation
Don't need no alibi
Just come on through (come on through)
Come on through (come on through)
Forget your hesitation
Don't let it pass you by
Just come on through (come on through)
Come on through (come on through)
Yeah I'm talkin' to you

See I need you, you need to (just come on through)
'Cause I got you, you got to (just come on through)
